

lundi 30 juin / Monday Juin 30

Heure/Time	Présentations
14H30	Patrick Cavanagh: Welcome
14H40	Sebastien Marti: An MEG study of the attentional blink
15H00	Claire Sergent: Retrospective effects of attention on conscious perception: behavior and MEG.
15H20	Howard Bowman: Breakthrough Percepts and deception detection on the fringe of awareness
15H40	Margaux Larre-Perez: Stroop-like interference between structural and functional hand gesture within objects
16H00	Pause café / Coffee Break
16H20	Brent Strickland: Object continuity and solidity in visual processing: a surprising discrepancy.
16H40	Hannah Krüger: Inhibition of return: is it active suppression or a consequence of attention withdrawal?
17H00	Jane Raymond: The Role of Motivation in Visual Processing
17H20	Céline Paeye: Reinforcement learning in visual search
19H15	Dinner at Café Louise

LPP
 Birmingham
 Guest

mardi 1 juillet / Tuesday July 1

Heure/Time	Présentations
9H30	Patrick Cavanagh: Flexible capacity limits in attention and short term memory
9H50	Ilja Sligte: A direct link between iconic memory capacity and visual cortex functioning
10H10	Martin Rolfs: Saccades determine the fate of fragile content in visual memory
10H30	Claire Miller: The effect of inter-stimulus competition on early visual ERP components
10H50	Pause café / Coffee Break
11H10	Matteo Lisi: Object-based cueing required for attentional benefits in world coordinates
11H30	Jess Kerlin: Perceptual Consequences of Rapid Visual Stimulation
11H50	Mark Wexler: Perceptual learning in motion and depth
12H10	Florian Perdreau: Drawing skill relates to a better memory of features
12H30	Lunch at Jazz Club
14H00	Dessert, coffee, informal but profound chit-chat at 49 rue des Saints Pères
